

# Box End Stay Assembly

*Fence it Once,  
 Fence it Right!*

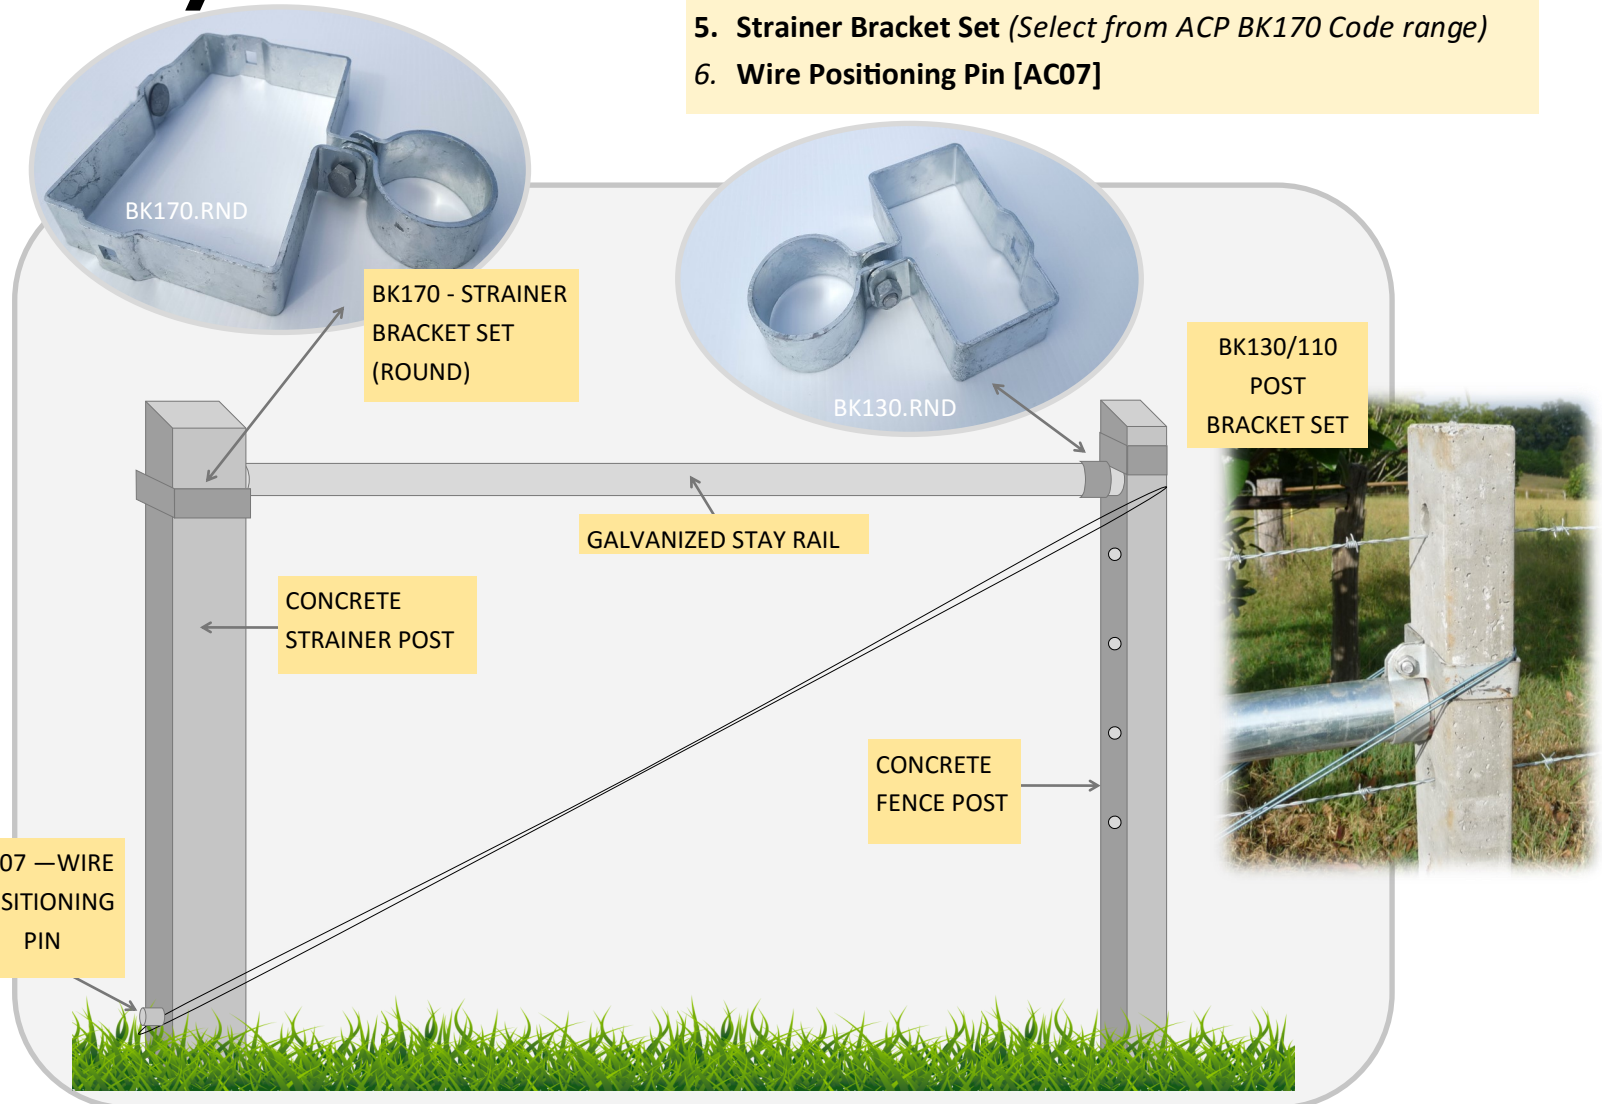

## HOW TO BUILD A BOX END ASSEMBLY:

Choose the components to make up your Box End Assembly

1. **Concrete Fence Post** (Select from ACP Code Range FP)
2. **Concrete Strainer Post** (Select from ACP Code Range SP)
3. **Galvanised Stay Pipe or Rail** (Select Round Pipe or Cattle Rail from ACP Code Range AC)
4. **Post Bracket Set** (Select from ACP BK130/110 Code range)
5. **Strainer Bracket Set** (Select from ACP BK170 Code range)
6. **Wire Positioning Pin** [AC07]

If you want a corner stay with directional change you just need another Rail Support bracket and Stay Rail BK04 Rail Support Bracket

(Drawings are not to scale)
